"Dear Safe Harbor - Words cannot explain how thankful and appreciative I am for this opportunity. I want to thank you for accepting my daughter and myself into your program.

If it wasn't for Safe Harbor, and everyone involved with this organization, I honestly don't know where I would be right now. I didn't realize how bad I was being treated. I felt brainwashed and living through my abuser's mind. I was living in fear and walking on eggshells. I wasn't able to grow and reach the goals I wanted to accomplish.

I feel so blessed to be in Safe Harbor, this is exactly what I needed. A safe positive environment. As soon as I walked in I felt at peace. All of the staff members have made me feel more at ease. They didn't make me feel intimidated or make me feel like I was a burden. This home has empowered me to grow and become the woman I knew deep down I could be. I just needed help and the opportunity to shine. It's very tough and scary being a single mother with no family support, but Safe Harbor has been my support system and family. I really needed this opportunity.

Being here has made me grow spiritually, emotionally, mentally, and financially. Everything that was taken away from me is now being restored. This is an amazing blessing. Thank you again for everything. I truly appreciate this opportunity."

Without your help, we would never receive letters like this because we would not be able to accomplish what we do. Your support to Safe Harbor can change the world for the better. For more information visit www.safeharborshelter.com, or email at info@safeharborshelter.com
